Energy Recovery Devices

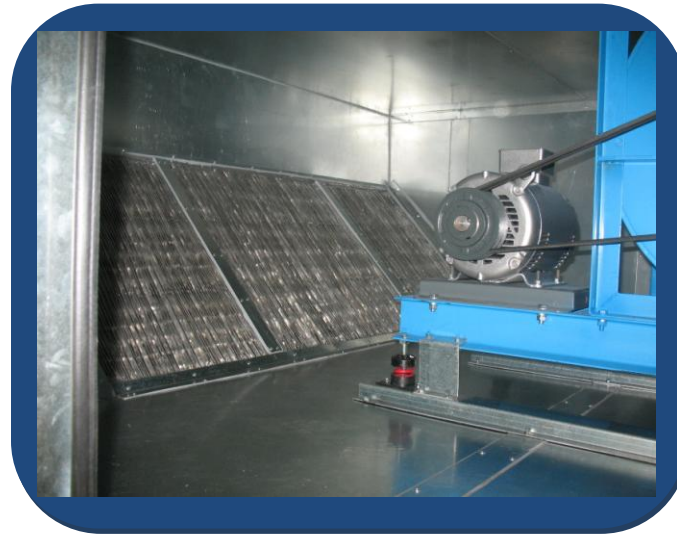

Available Options

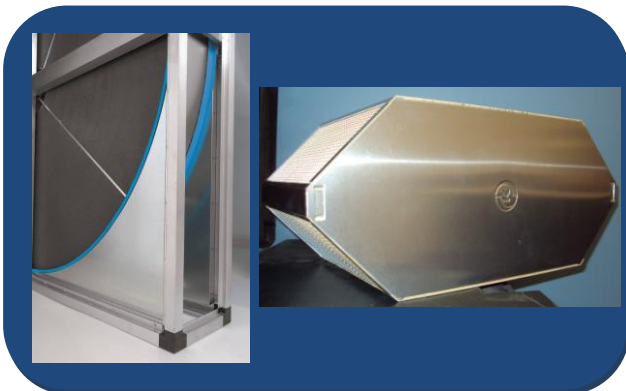

Typical Applications

- ◆ Schools
- ◆ Hospitals
- ◆ Health Clubs
- ◆ Office Buildings
- ◆ Aquatic Centers
- ◆ Pharmaceutical Labs
- ◆ Health Care Facilities
- ◆ Food Processing Plants
- ◆ Waste Water Treatment Plants

- ◆ Aluminum Cells
- ◆ Stainless Steel Cells
- ◆ Aluminum Cells with Epoxy Coating
- ◆ Polypropylene Cells
- ◆ Enthalpy Cells
- ◆ Total Energy Wheels
- ◆ Heat Wheels
- ◆ Desiccant Dehumidification Wheels
- ◆ Heat Pipes

Wide Range of Applications

- ◆ Commercial
- ◆ Industrial
- ◆ New Construction
- ◆ Existing Buildings

“Anything to temper, humidify, dehumidify, or clean an air stream, ECSI can put into a custom unit.”

“Dependable Energy Recovery for Affordable Clean Air.”

- ◆ Heating
 - Geothermal Source
 - Hot Water Coils
 - Steam Coils
 - Natural Gas
 - Propane
 - Electric
- ◆ Cooling
 - Geothermal Source
 - Cold Water Coils
 - DX with ACCU
- ◆ Dehumidification
 - Dehumidification Loops
 - Desiccant Dehumidification
- ◆ Humidification
 - Gas Fired Humidifiers
 - Electric Humidifiers
- ◆ Filtration
 - High Efficiency Filtration
 - Electrostatic Air Cleaning
- ◆ Curbs and Bases
- ◆ Cabinets and Inner Liners
 - Painted Exterior
 - Fiberglass Insulation
 - Coated Interior
 - Aluminum Liner
 - Stainless Steel Liner
 - Perforated Liner
- ◆ Drain Pans
 - Galvanized Steel
 - Stainless Steel
- ◆ Custom Controls
